CAREER SUMMARY

I am a self-taught UI / front end specialist. I specialize in rapid UI development across all screen resolutions and devices. My interests are in tracking UI interactions and monitoring the effects of varying UI element placements. I have experience in various languages of web development acquired over the past 6 years. I am a hard worker and a fast learner who is passionate about technology. To keep my skills relevant I attend meetups and study online courses at Plural sight, Udemy, Alison, and Coursetro.
